To Whom it May Concern,

In the later half of 2025 I had the pleasure of teaching Emmanuelle in my Fall Pediatrics Clinical rotation at UCLA Mattel Children's Hospital. Emmanuelle has demonstrated exceptional qualities in critical thinking, clinical skill, adaptability, professionalism, reflection, and compassion. As a Pediatric nurse of 17 years who has been in leadership roles as well, I believe all these qualities are what make a nurse truly excellent and wholesome.

During clinical, she was eager to learn and practice skills, seeking out every opportunity to grow. She exhibited excellent critical thinking skills in the way she presented her patients' cases to me, and also in her clinical assignments. Her ability to reflect on the patient cases and overall clinical experience with deep compassion was refreshing to witness. She is already the kind of nurse I would want caring for my children: Someone who genuinely cares and advocates with a gentle yet fierce presence.

If you are considering making Emmanuelle a part of your team, I am confident that she will bring the same superb level of excellence to your organization as she has shown throughout her training. Please do not hesitate to contact me if you would like additional information.

Sincerely,

Marites Narciso, RN, BSN, CPN
