

2/12/26

To Whom It May Concern,

My name is Shameer Debnath, M.D., and I am the Medical Director at Southern California TMS Center. We are the largest privately owned practice administering transcranial magnetic stimulation in the United States. I have had the pleasure of working with Emmanuelle "Ella" Stockfish from July of 2022 until May 1st of 2025. She worked as a TMS technician and had also assisted with our Spravato (esketamine) program. She's worked in several of our high-volume offices, treating some of the most difficult patients. Her position is multifaceted, requiring a personal touch with patients, an administrative role to manage documentation, and technical expertise to safely and effectively administer treatment. She had done an excellent job in all areas. She will one day make an excellent nurse, given all of her qualities, and I'd recommend her for this program in hopes that it will help facilitate that transition.

If you have any further questions, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to be "SD" with a flourish.

Shameer Debnath, MD, FAPA, FASAM
Medical Director
